RE: U.S. EPA Indian Environmental General Assistance Program

Application Due:

JUL 08 2015

Dear Chairperson Fink:

I am pleased to inform you that your proposal submitted to this office under the U.S. Environmental Protection Agency's Indian Environmental General Assistance Program (GAP) has been tentatively approved for funding. At this time, I am setting aside \$107,700 of funding to support your GAP for FY 2016 and \$109,800 for FY 2017. An additional \$20,260 has been tentatively set aside for supplemental activities as follows: \$10,779 for year one and \$7,496 for year two salary increases, and \$1,985 for outreach supplies for year two. The total tentative award for your two-year GAP is \$237,760.

The Tribe consistently has a considerable GAP grant balance each year. We recommend implementing either a monthly or quarterly system of drawing down grant funds commensurate with expenditures incurred for that period.

**Work plan submission, negotiation, and approval will be conducted electronically in GAP Online.**

The comments attached here for your reference are also available in GAP Online. If we receive your complete application and an **approvable** revised work plan by the due date we will make every effort to award the grant by September 30, 2015. This funding will support work plan activities from October 1, 2015 to September 30, 2016. Please do not incur any costs under this work plan until the official grant award document has been signed and dated by the EPA Award Official. Any costs incurred before the date of award will not be reimbursed.

This letter does not constitute a grant award. In order to receive funding, the North Fork Rancheria will need to complete an Application for Federal Assistance (SF-424). **The complete application, including an approvable work plan, must be submitted for EPA review by the due date indicated above.** Materials can be submitted earlier and will be processed on a first-come, first-served basis. Please note that in completing your application, you will need to enter the GAP Catalog of Federal Domestic Assistance Number (CFDA), required in box #11 on the SF-424A application form, 66.926.

**New Process for Submitting Your GAP Grant Application**

Effective February 17, 2015, EPA grant applicants **must** use Grants.gov to submit their applications. The Grants.gov registration process can take up to 30 days to complete. Therefore, it is highly recommended that EPA applicants complete their registration on Grants.gov now. Also, your organization's registration in SAM.gov must be active to utilize Grants.gov. If it

appears that the grants.gov registration process may prevent you from submitting your application by the due date aforementioned, then please contact [Support@grants.gov](mailto:Support@grants.gov) or call 1-800-518-4726 as support is available 24 hours a day and 7 days a week. You should also notify your Project Officer before the application due date to request an extension.

Please review both Attachment 2 (Grants.gov Instructions Guide) and Attachment 3 (Region 9 Guidance Information for Applicants) or go to <http://www.epa.gov/region9/funding/information.html> to find additional resources on Grants.gov, Federal Regulations, and new EPA requirements. We suggest you forward these materials to your Project Manager, Financial Officer and any other personnel in your organization requiring this information.

I look forward to working with you and your staff under the General Assistance Program. Questions regarding the completion of the application forms as well as the mandatory use of grants.gov should be referred to Maria Roverso, Grants Management Specialist, at (415) 972-3573. You can also contact your GAP Project Officer, Willard Chin at (415) 972-3797 if you have questions regarding this letter, the work plan or the General Assistance Program.

Sincerely,

**GAP 2015-2016 Work Plan Comments**  
**North Fork Rancheria of Mono Indians of California**

Thank you for developing an outcome-oriented work plan. The following observations and requests were written with the intent of strengthening the Tribe's GAP work plan, identifying possible assistance, and ensuring the work plan meets GAP guidelines. These comments pertain to the 2015-2016 work plan that was submitted with your GAP proposal in December 2014. Please ensure that these comments are addressed in your final GAP work plan.

**General Definitions and References**

1. The following references are useful for understanding GAP in general, for getting an understanding for environmental outcomes, etc.  
2013 Guidance on the Award and Management of General Assistance Program Agreements and Appendix I, Guidebook for Building Tribal Environmental Program Capacity  
<http://www.epa.gov/region9/funding/pdfs/tribal-gap/r9-gap-guidance.pdf>  
GAP Act (<http://www.epa.gov/Indian/pdfs/4368b.pdf>)  
2015 GAP Grant Notification (<http://www.epa.gov/region09/funding/tribal-gap.html>)  
EPA Strategic Plan (<http://www2.epa.gov/planandbudget/strategicplan>)
2. Environmental outcomes should be expressed in terms of improvements to public health, the environment, or human behavior. They can also reflect improved tribal capacity to protect public health or the environment. Intermediate outcomes could reflect: a) improved human health or environmental conditions, b) reduced risks to human health or the environment, c) increased tribal capabilities in legal, enforcement, technical, communication, or administrative areas. Long-term outcomes could include attainment of desired environmental conditions (e.g., water quality standards are met) or human health goals, attainment of a desired capacity to plan, develop, implement, manage and sustain tribal environmental programs.
3. Please ensure that each component in your work plan contains one or more capacity indicators that appropriately links to the commitments. Capacity indicators represent the destination of the Tribe's work and therefore the Tribe should express how it will accomplish the tasks necessary to achieve the indicators proposed in its commitments. Moreover, capacity indicators should ideally be placed in the "Measures" section for each component in the work plan. More information on the appropriate use of indicators is found on page 13 of the GAP Guidance. A suite of indicators that the Tribe may consider for inclusion in its work plan is contained in Appendix I of the GAP Guidebook.
4. Please correct any typographic errors in your work plan. Please note that GAP Online does not accept special punctuation or characters including quotation marks, apostrophes, semicolons, or parenthesis.
5. Please ensure that the total work plan Estimated Component Costs add up to the total approved budget amount indicated in the cover letter, and that the total work plan Estimated Work Years adds up to the total number of approved personnel funded under GAP. I have attached a document entitled "Component Cost and Work Years Guidance" that will help you to correctly identify Component Costs and Work Years to comply with this request.

6. Greening Grants Policy: EPA Region 9 has adopted a Greening Grants Policy which encourages grantees to carry out their EPA grant funded projects in a greener way. Your Project Officer will work with you to determine whether it is feasible to incorporate green practices into your work plan. The Greening Grants Policy includes an attachment which describes many useful green practices. The policy furthers the objectives of EPA's 2011-15 Strategic Plan. The link to Greening Grant Policy is on the Region 9 Website Homepage, <http://www.epa.gov/region9/funding/greening-grants.html>

### **FY 2016 Budget Comments**

Please revise your budget to reflect the core funding amount of \$107,700 and the supplemental funding increase of \$10,799 for salaries and FTE increase. The FY 2016 budget total is \$118,499.

### **FY 2016 Workplan comments**

#### **Component #1: Environmental Research**

Commitment #1.2 is duplicative of Commitment 1.1 and should be deleted.

#### **Component #3: Indoor Air Quality**

EPA Region 9's Indoor Air Quality Team supports the tribe's interest in community outreach on IAQ, as well as building staff capacity and skillsets. We also encourage development of a comprehensive indoor air quality program that would address issues identified in the workshop survey and report.

The Tribe has recognized the need to establish a radon program, which we agree should be a top priority given the health impacts of radon exposure. Radon is the 2<sup>nd</sup> leading cause of lung cancer after smoking. The tribe may need to get the training to conduct radon testing. The Western Regional Radon Training Center offers training on testing and mitigation and administers certification tests. The costs for training on testing alone and the certification may run around \$600. However, a great deal of information can be obtained from ITEP and the TAMS center at NAU. A quality assurance plan should be developed to support the testing.

In addition to radon testing, and as part of a comprehensive IAQ program, we recommend: Carbon monoxide detection in any building with a combustion source (e.g. natural gas heating, wood or coal stoves, fire places, gas ovens and ranges) should have carbon monoxide detectors installed. CO is an odorless, colorless gas that comes from combustion; acute exposure to CO can lead to immediate death. We encourage prioritizing education about CO as well as implementation of CO monitors.

Indoor air quality or healthy homes/buildings assessments: Assessments will help your department become aware of IAQ needs in the tribal community. They can help address/avoid respiratory problems (e.g. asthma), headaches, neurological problems, and exacerbation of heart conditions. Although assessments do not require instruments or measurements, CO<sub>2</sub>, humidity and moisture meters are often helpful as a means of educating occupants. Since measurements are not required for making recommendations, generally a quality assurance plan is not necessary. The TAMS center can provide training for doing these assessments. Checklists are

used to assess the homes and buildings for proper ventilation, means of heating homes and cooking, moisture and mold, etc.

Incorporating IAQ improvements or features as part of building renovation or new construction, which the tribe has mentioned in Commitment 3.2.

We support the tribe's effort to identify partners on addressing IAQ issues and doing community outreach, especially to parents. We also recognize that partners can come from various sectors such as education (schools and university), housing, health services, NGOs, local businesses, as well as other tribes. Support can be especially useful for resource sharing, peer learning, and program implementation aspects not covered by GAP funding.

#### **Component #5: Environmental Education and Outreach**

Commitment 5.6 outputs and deliverables should include "Submit to EPA a summary of Environmental Health Fair activities including information about community partners, environmental issues discussed and estimated attendance."

## **Component #6: Financial Management**

Commitment 6.3 outputs and deliverable should include a summary of federal regulations reviewed.

Commitment 6.4 outputs and deliverable should include the following language, “a summary of Tribal personnel, procurement and travel policies reviewed and any revisions to those policies be submitted to EPA.”

## **Component #8: Management of the Environmental Office**

Commitment 8.4 outputs and deliverables should include the following language, “A summary of the Tribe’s document management system will be submitted to EPA.”

## **FY 2017 Workplan Comments**

### **Budget Comments**

Please include in your application \$109,800 for core funding and \$7,496 for salary increase and \$1,985 increase in outreach supplies for a total of \$119,281.

## **Component #2: Building Tribal Water Quality Program Capacities**

Commitment 2.2 description reads: “Staff will meet two of the objectives outlined in the ETEP,” The outputs and deliverable reads: “Develop relationship with EPA Water Division to further the goals of the objective of the Tribe.” Please revise this section to be more specific on what activity will be accomplished in developing the water program and what outputs and deliverable will demonstrate completion of the activity.

## **Component #4: Pollution Prevention and Recycling**

Commitment 4.4 should specify the goal/objective from from the Integrated Solid Waste Management Plan to be accomplished.

Commitment 4.5 outputs and deliverables should include the curriculum or materials developed for the program.

Commitment 4.6 outputs and deliverables should include the submittal of sample workshop or outreach materials.

## **Component #5: Environmental Education and Outreach**

Commitment 5.3 should identify potential new topics for the newsletter as the current language is the same as the FY 2016 commitment.

**Component #6: Financial Management**

Commitment 6.3 outputs and deliverables should include “summary of new regulations reviewed.”

**Component #7: Travel and Training**

Commitment 7.2 is the same as the FY 2016 commitment. Please explain how this series of on-going meetings with the same stakeholders is building capacity.

**Component #8: Management of the Environmental Office**

Commitment 8.2 outputs and deliverable, “Staff will develop a management employee handbook and provide to EPA upon request and approval of the Tribal Council.” Since this is the same output and deliverable as the FY 2016 commitment 8.2, please clarify if this is a revision to the same document.

## EPA Region 9 - Grants.gov Instructions Guide

( March 2015 )

*Applications for Federal assistance must be submitted through Grants.gov.*

**Register with Grants.gov!** In order to submit your application using Grants.gov, your organization must be registered with Grants.gov. Please allow four weeks to complete the registration process. Also, please note that you must have a DUNS number and an active SAM.gov registration before registering with Grants.gov. You can find more information about registering at:

- Interim Financial Assistance Conflict of Interest Policy:

In accordance with the Omni-Circular's Conflict of Interest disclosure requirements under [2 CFR 200.112](#), EPA issued the [Interim Financial Assistance Conflict of Interest Policy](#).

Requirements include applicants providing a prominently titled conflict of interest disclosure statement attached to the SF 424, if applicable. This policy applies to all individuals and nonfederal entities requesting and receiving EPA financial assistance on or after **December 26, 2014**. (Note: A standard EPA form is not currently available for the COI disclosure requirement since this is an interim policy.)

- Submission of Grant Applications via Grants.gov:

Effective **February 17, 2015**, EPA grant applicants must use [Grants.gov](#) to submit their applications. It is highly recommended that EPA applicants complete their registration on Grants.gov now, since the entire process can take up to 30 days to complete. Information located at [Submitting an Application to Grants.gov Apply](#) and [Applicant Resources](#) for Grants.gov will help you get started. Applicants are also encouraged to view a previously recorded [EPA Information Webinar](#) session/ presentation regarding Grants.gov or register for an available session.

- **Bundling of Grant Application Certifications (for States & Tribes):**

State and Tribal applicants are highly encouraged to submit annually a single set ("bundling") of application certification forms with a cover letter. The letter must indicate the applicable timeframe (usually a federal or state fiscal year) of the certifications for all EPA grant applications received by Region 9 Grants Management Office (GMO) within that period. GMO accepts Adobe format (.pdf) of the letter with applicable signed certification(s) through the electronic mail box: [grantsregion9@epa.gov](mailto:grantsregion9@epa.gov). Please note that updated forms must be submitted when changes to the responses are required. The following certifications can be bundled:

- ❖ [Standard Form \(SF\) 424B, Assurances for Non-Construction Programs](#)
- ❖ [EPA Form 6600-06, Certification Regarding Lobbying, Certification for Contracts, Grants, Loans and Cooperative Agreements](#) ❖ [EPA Form 4700-4, Preaward Compliance Review Report for All Applicants Requesting EPA Financial Assistance](#)

Applicants are highly encouraged to use bundling of their certifications if multiple EPA applications are submitted annually. Bundling can be especially helpful as EPA is transitioning to Grants.gov. Please contact your EPA Grants Specialist for questions regarding bundling.
